Benefit or Outcome	Provide a specific measure of the benefit or outcome	Describe the method for measuring level of benefit
<input type="checkbox"/> Improve physical health		
<input type="checkbox"/> Improve mental health		

<input type="checkbox"/> Enrich cultural experience		
<input type="checkbox"/> Improve agricultural production/promotion/education		
<input checked="" type="checkbox"/> Improve quality of education	We would be the first such example of autonomous vehicles in the State of Florida.	Would be able to provide data and research to area educational institutions.
<input type="checkbox"/> Enhance/preserve/improve environmental or fish and wildlife quality		
<input type="checkbox"/> Protect the general public from harm (environmental, criminal, etc.)		
<input checked="" type="checkbox"/> Improve transportation conditions	With our road system becoming more and more congested, this will be the first working model of what could be used as a way to address our State's transportation needs.	This first trial in the State will be able to provide data and research so transportation planning organizations and other similar entities can determine if introducing the Olli on a wider scale would be viable.
<input checked="" type="checkbox"/> Increase or improve economic activity	As a base for transportation technology and logistics, this could help develop other technology businesses in the area. The venture will provide economic impact by direct, indirect, and induced means as well as provide transportation services using the most advanced technology. We will share data and technology research information with area colleges and universities as an educational tool.	Additional resources from other areas of the country would look to Northeast Florida as a working laboratory with this technology thus creating spin-off opportunities.
